SUSSHRUT

Anorectal Training Institute
& Research Centre

From Ayurveda to Modernity.. Together We Lead to Invention

Dr. Shivkumarr Gorey
B.A.M.S., Anorectal Surgeon, Ayurved Coach

Scientific Thinking is the most superior tool of a Physician (Ayurvedic Vaidya).
"Conferences, Discussion, New Courses are very helpful
for developing our Knowledge & Talent !"

Charak, Sushruta, Vagbhat etc. Acharya has given vast contributions in the field of Ayurveda & Ayurvedic Knowledge.

Rather than using the knowledge of Ayurveda, we consider a blessing to practice with the inadequate knowledge of allopathy.

An Ayurvedic graduate cannot describe any disease in an allopathic manner, but it is the time of symptomatic treatment, we can cure it all.

Today, allopathic science has made so much progress, but Ashta Mahagad, Cancer, AIDS are still incurable. Diabetes, heart disease, vitiligo, thyroid, blood

pressure, psychosis still require lifelong medication.

Is any patient with this disease 100% disease free?

So if Ayurvedic Panchakarma takes 2-3 months to cure the patient, what is

the problem? Why does the pharmaceutical company decide which drugs to prescribe in our practice ? Previously for acid/bile(acidity) digene, aciloc pill was useful, now it requires pantoprazole inj of Rs. 100 or more. Does human bile change? No. Our thinking is not scientific. I'm not saying I'm against new research, we just forgot our true concept.

Even in today's computer age, piles, fistula, fissure etc. although we have the right to treat the disease of the rectum, people like bogus doctors, babas, people without degrees, nimhakims, etc. spend thousands of rupees of patients by doing various experiments, we disagree with that but what next ?

Transform yourself from General Practitioner into
Anorectal Consultant

DEAR DOCTORS, GET UP AND WAKE UP BE YOUR OWN SCULPTOR YOU ARE AN AYURVEDA EXPERT, PRACTICE THAT SCIENCE AND INCREASE YOUR FINANCIAL INCOME TREMENDOUSLY.

I, Dr. Shivkumarr Gorey successfully treated Hemorrhoids Fistula, Fissure and Anorectal disease with only two hours of Ayurvedic scientific Kshar Karma, Agnikarma, Kshar Sutra method. This treatment is permanent, without bleeding, with minimum pain & for only two hours.

No one has given us the true and vast knowledge of Ayurveda.

Rather than using the knowledge of Ayurveda, we consider a blessing to practice with the inadequate knowledge of allopathy. Today I am giving you the experience of the treatments done by me on thousands of patients since 2003.

There are more experts in allopathy & branches of allopathy but through Ayurveda we can create many more. Definition of herbal medicine "The real medicine that destroys the existence of disease and itself" This definition applies to which medicine of allopathy? How well we can increase our income by using our science to protect & cure patients!

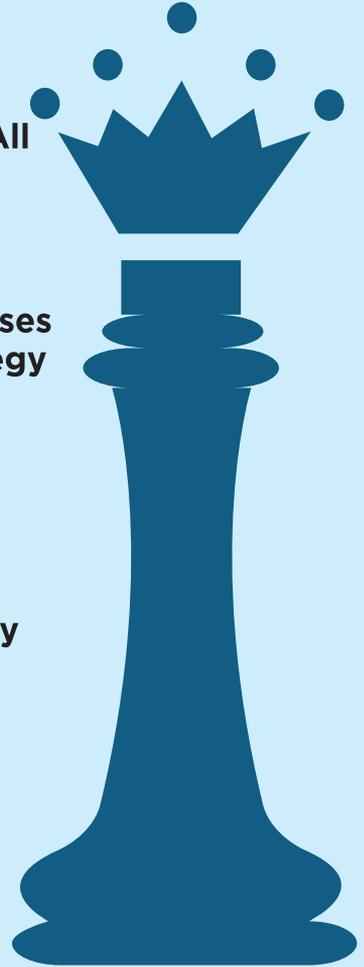

In Anorectal except diseases like piles, there are many more like Hemorrhoids, fistula, fissure polyp, pilonidal sinus, pruritus ani, fungal infection, prolapse of rectum, abscess, thrombosed cyst, anal warts, sentinal piles, cancer etc.

Every year a new treatment is added to the above diseases in allopathy. New therapies are being added to patients. Experiments with new machinery are performed on patients. For this, the treatment that has been going on for two thousand years has come to the test of time. Its income is carried away by bogus people. So is anyone holding your hand?

"Don't just start a General Practice by doing BAMS, Become an Anorectal Consultant/Specialist !"

- Day 01 Why this is Best ?
